## PERSONAL STATEMENT

I am an innately creative individual, with a genuine passion for graphic arts and expressing myself through the medium of digital illustration. Technologically literate, I am highly experienced in using image manipulation applications to an excellent standard for a number of tasks, including both photo editing and digital drawing and painting. A perceptive, empathic communicator, able to work successfully alone or as an effective member of a team; I am looking for an entry-level Graphic Artist or Design role or another role within a diverse and inclusive business, that would allow me to fully realise my talent and aid an organisation in meeting and exceeding its aims.

## KEY SKILLS

- Excellent digital illustration and image manipulation skills.
- An exceptional level of Digital Literacy, able to use business applications, such as Microsoft Office, to an incredibly high standard.
- An extensive knowledge of computer components and software, having dismantled and reassembled a wide range of devices.
- A passion for building my own capability and expanding my skillset via training and self-directed study.

## INTERESTS

I have a varied number of interests. In my spare time, I enjoy reading, especially graphic novels and non-fiction works. I have a passion for consuming various forms of popular media, such as Manga and Anime and Western Comic Books. In addition to this, I have a love for digital illustration, often creating art in my free time, spiked with influences of the popular culture works that I am enamoured with.
